SKILLS:

-Delivery Experience
across all Salesforce
ecosystems

-Hands on APEX developer
and architect

-Proven technology lead
across 1,200 small and
large-scale implementations

-Specialities of CI/CD,
change control, large data
integrations, portal /
communities and lightning
conversion(s).

-Technology Relationship
lead for big 8 and middle tier
system integrators

-Developer presenter at
multiple Salesforce and
Dreamforce events

-Contributor author/editor
for Salesforce published
books and other publications

OBJECTIVE:

I am seeking a new role within the Salesforce ecosystem to allow me help an organization used my focused set of delivery for a single organization instead of my 100% travel geographically deviating large portfolio of accounts, clouds and customer projects I currently deliver through Salesforce Professional Services.

EXPERIENCE:

Salesforce Architect (Salesforce Inc.) February 1, 2008 - CURRENT

Alongside success managers, account managers and stakeholders, I serve my Salesforce technology portfolio of professional services clients across the Salesforce ecosystem. As a member of the professional services organization, I help build/foster and engage Salesforce within companies by clearing technology and project roadblocks within the ecosystem. I build and assist with complex integration(s) outside of Salesforce and helps users engage the platform through comprehensive support and solutions.

Accomplishments:

- Salesforce with recursive AWS IDE Instances for clients utilizing GitHub and Amazon for stability
- HomeDepot acquisition via MySalesforce1 app the Apple Store [LINK](#)
- HealthFirst 8 month deployment of communities for vendors, care providers and patients. [LINK](#)
- APEX, VisualForce, MSSQL/MySQL/Oracle and DynamoDB
- Contracted by Peachpit Press to contributed to the Salesforce Web Application Kit for Nonprofits
- Speaker at numerous Salesforce conferences
- Assisted in rollout of multimillion dollar Salesforce deployments and client architectures
- Clients/Partners include Deloitte, HP, HCL, Salesforce.com, Google, Adobe, Health Corporation of America & Simon Property Group and hundred more
- Separation of HP, Inc and it's 380,000 employees as part of the HPI/HPE and across 6 Salesforce orgs
- At OneAmerica Financial in 2014 I as the Salesforce architect built out entire Salesforce team of 3 developers and QA/BA team of 9 for 1800 Salesforce users
